

Application Guidelines for Exchange Students to Ochanomizu University (Fiscal Year 2024)

A. Educational Characteristics

The most distinguishing feature of the educational programs Ochanomizu University offers is the adoption of highly advanced curriculums taught in small class units. In the specialized education curriculum in particular, the intellectual capacity that each student aims for is cultivated through small seminars, labs and practical training. Another pivotal focus of the university's educational platform is "leader education" firmly grounded into the current trend toward globalization. In the quest to foster international caliber knowledge and abilities, we make keen efforts to instill superior language skills and cultural literacy applicable on the global front, in tandem with the development and practical application of educational research keyed to the lifestyle of modern women.

True to our mission statement to excel as "a place where all women who are motivated to learn can realize their earnest dreams", Ochanomizu University will continue to fulfill our role as an institution of higher education.

For details, please refer to <https://www.ocha.ac.jp/intl/studyjp-en/index.html>
